

Overview of the Strategic Plan Project for the Ghana Investment Fund for Electronic Communications (GIFEC)

The CTO was consulted by the Ghana Investment Fund for Electronic Communications to develop its new 5-year Strategic Plan. This project called for the CTO to review and evaluate GIFEC's situation and requirements, subsequently conducting the strategic planning exercise and making a number of recommendations. In addition to developing a Strategic Plan for GIFEC, which consists of new strategic objectives and a new institutional framework for the organisation, the team will also develop a business plan for GIFEC based on the new Plan.
