

Overview of the Strategic Plan Project for the Ministry of Telecommunications and Postal Services, South Sudan

South Sudan, Africa's newest country, has recognised the important role of ICTs in stimulating socio-economic development. To ensure the ICT sector is able to stimulate the accelerated socio-economic development of the South Sudan, the Government of South Sudan has sought technical assistance from the Commonwealth Telecommunications Organisation (CTO) for the Ministry of Telecommunications and Postal Services (MOTPS), Government of South Sudan (GoSS). The project calls on the CTO to assist MOTPS in the development of a Strategic Plan.

Drawing on best practices from around the world, which are further enriched by creative thinking and in-house expertise, the CTO will provide MOTPS with a strategic plan. Furthermore, the CTO will help MOTPS identify the legislative and regulatory needs and institutional structure required to deliver the strategic plan.
